FOREWORD

Vd. Siddhesh Pandya

M.D.,Ph.D.,(Samhita)

Principal, Government Ayurved College,

Formerly Professor & Head, Dept. of Samhita,

Junagadh,Gujarat

Ayurved is a science that teaches the art of living life. Dravyaguna Vijnana has always been an important pillar for this science. Supply of authentic raw material is a basic need for all the Ayurvedic formulations regardless of being a food article or a medicine. It's a need of the time to identify the raw material that comes in the form of Dry Drugs. The department of Dravyaguna, Government Ayurved College, Junagadh comes up herewith the e-book entitled "**Monographs of Dry Drug Samples**".

This book contains the Monographs of **359** dry drugs in pictorial form to make it ease the comparison with samples available in the market. The dry drugs have been classified in 14 groups on the basis of the part used of the plant. This is a collective effort of **Vd. Hariom Gupta**, Professor, **Vd. Arti Rupani**, Lecturer, **Vd. Neha Parmar**, Lecturer (Currently at Kolavda) & **Mr. Kartik Kidiya**, Lab. Tech., Department of Dravyaguna, Government Ayurved College, Junagadh. Hope this effort

would prove to be a helpful landmark for not only the students of Ayurved but also for the pharmacies and even recipients of Ayurved from common people. Considering this utility, this book is being published on this Independence Day as a part and parcel of the celebration of **"Azadi Ka Amrit Mahotsav"**. Wishing all the very best….

Vd.Siddhesh Pandya

Principal,

Government Ayurved College,

Junagadh

From Authors' desk

We are happy to inform you that Dravyaguna Department, Government Ayurved College, Junagadh is going to publish 2nd edition of e-book named "Monographs of Dry Drug samples" on 10 November, 2023 on the occasion of 8th Ayurveda day after successfully completion of 1st edition of this e-book which was published on 15th Aug 2022 on "Azadi ka Amrit Mahotsav."

It should be noted that photos of the drugs are exclusively based on market sample of the drug. However, some samples which are collected from field as mentioned on photographs as **Collected Samples*. Hence authenticity of the drugs should be checked by the expert before using them in the practice. Our 1st edition had 357 drugs, but this 2nd edition has total 387 drug samples.

This book consists of 15 groups, which are on the basis of the useful parts of the plants. Total 387 Monographs of Dry drug Samples are there. In which Roots -50, Tubers -09, Rhizomes - 18, Stems - 08, Stem Barks - 33, Thorn - 01, Heartwoods - 04, Exudates -19, Flowers - 18, Stamen - 01, Stigma - 01, Fruits -119, Seeds – 96, Galls – 03 and Miscellaneous - 07.

This book will be useful for UG, PG and Ph.d. Ayurved students as well as in Research and in Pharmacies.

Dravyaguna Department,

Government Ayurved College,

Junagadh

INDEX

Sr.No.	Name	Page number
1.	Roots	1-50
2.	Tubers	51-59
3.	Rhizomes	60-77
4.	Stems	78-85
5.	Stem barks	86-118
6.	Thorn	119
7.	Heartwoods	120-123
8.	Exudates	124-142
9.	Flowers	143-160
